What to Do?

Get the Picture!

Take it Home!

List some of your personal, family or group “rules” or expectations. It should be pretty easy to list **WHAT** those rules or expectations are.

Then try to determine **WHY** you have those particular rules or expectations.

Does making these lists uncover anything important that you should think about more?

Take It Home – Take this home and use these questions to think about the ideas shared today. It is even better if you can use these questions in a conversation with someone else.
